KODOL

Weak Hearts

Are due to indigestion. Ninety-nine
of every one hundred people who have
heart trouble can remember when it
was simple indigestion. It is a sci-
entific fact that all cases of heart dis-
ease, not organic, are not only trace-
able to, but are the direct result of
indigestion. All food taken into the
stomach which fails of perfect diges-
tion ferments and swells the stomach,
puffing it up against the heart. This
interferes with the action of the heart,
and in the course of time that delicate
but vital organ becomes diseased.

Kodol

Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y.,
writes: After eating, my food would distress
me by making my heart palpitate and I would
become very weak. Finally I got a bottle of
Kodol and it gave me immediate relief. After
using a few bottles I am cured.

Kodol cures indigestion, dyspepsia
and all stomach disorders, and gives
the heart a full, free and untram-
meled action.

Bottles only. \$1.00 Size holding 2 1/2 times
the trial size, which sells for 50c

A Perfect Painless Pill

Is the one that will cleanse the sys-
tem, set the liver to action, remove
the bile, clear the complexion, cure
headache and leave a good taste in
the mouth. The famous little pills for
doing such work pleasantly and ef-
fectually are DeWitt's Little Early
Risers. Bob Moore of Lafayette, Ind.
says: "All other pills I have used
gripe and sicken, while DeWitt's Lit-
tle Early Risers are simply perfect." Sold

Fight Will Be Bitter

Those who will persist closing their
ears against the continual recom-
mendation of Dr. King's New Discovery
for consumption, will have a long and
bitter fight with their troubles, if not
ended earlier by fatal termination.
Read what T. R. Beall, of Beall, Miss.,
has to say: "Last fall my wife had
every symptom of consumption. She
took Dr. King's New Discovery after
everything else had failed. Improve-
ment came at once and four bottles
entirely cured her. Guaranteed by
Moore & Ballew, Druggist. Price 50c,
and \$1.00 Trial bottles free.

Ladies and Children Invited.

All ladies and children who cannot
stand the shocking strain of laxative
syrups, cathartics, etc., are invited to
try the famous Little Early Risers.
They are different from all other pills.
They do not purge the system. Even
a double dose will not gripe, weaken
or sicken; many people call them the
Easy Pill. W. H. Howell, Houston,
Tex., says nothing better can be used
for constipation, sick headache, etc.
Bob Moore, Lafayette, Ind., says all
others gripe and sicken, while De-
Witt's Little Early Risers do their
work well and easy. Sold by Avenue
Drug Store.

fee roasted and packed under

A MARINE MUSEUM.

Wealthy Men of San Diego to Found
Scientific Institute For California.
The University of California is about
to receive a valuable gift from the cit-
izens of San Diego, Cal., in the form of
a marine biological laboratory equip-
ed and endowed with sufficient funds
to keep a corps of scientists at work
all the time, says a San Francisco spe-
cial to the St. Louis Republic.

The decision of the San Diegans to
found such an institution is the result
of the work of Professor W. E. Ritter,
who spent last summer on San Diego
bay and conducted the summer school
there, the expenses being footed by
the people of San Diego.

The San Diegans recently formed an
organization to be known as the Ma-
rine Biological association. Its pur-
pose is stated to be to found and endow
the San Diego Marine Biological In-
stitution, the objects of which, according
to the preamble to the bylaws, will
consist in "carrying on a biological and
hydrographic survey of the waters of
the Pacific ocean adjacent to the coast
of southern California, to build and
maintain a public aquarium and mu-
seum and to prosecute such other kind-
red undertakings as may be deemed
wise."

After the institute is founded and
sufficiently endowed it will be trans-
ferred to the University of California, so
that it may become a department of
the university, co-ordinate with exist-
ing departments.

Professor Ritter is to be director of
the institute. In explaining the needs
of such an institute to the people he
said that the southern coast was rich
in marine life and a good field for ex-
ploration. He urged the founding of
an institute that would prosecute its
researches continuously through salar-
ied investigators, not by individuals
who work according to their resources.
The members of the San Diego asso-
ciation are men of means, and they are
expected to subscribe a fund large
enough to yield \$10,000 a year, which,
it is estimated, the institute will cost.
The officers of the association are:
President, Homer H. Peters; vice pres-
ident, Miss Ellen Scripps; secretary,
Dr. Frederick Baker; treasurer, Julius
Wangenheim; directors, E. W. Scripps
and James MacMullin.

REVIVING GREECE'S SPIRIT.

American in Classic Dress Will Live
in a Temple.

The London Chronicle's Athens cor-
respondent telegraphed that he re-
cently had an interview with Mr. Duncan,
one of the Californians who made such
a sensation in the ancient Grecian
city by walking about the streets in
ancient Greek dress.

Mr. Duncan intends to build a studio
and a house in the form of an ancient
temple on a hill not far from the Acro-
polis on a site presented to him by the
government. He says his family has
come to Athens to study the old Greek
spirit, which he believes to be identical
with the modern spirit of Haeckel.

To have healthy human feelings in
your body, he added, you must wear
rational, simple dress. The garments
which his family wear were made in
Athens with the exception of the sand-
als, which are of Mexican origin. At
Athens even the Macedonian question
palls before the intense interest shown
in the three Americans. The Romans,
the Athenian Punch, which is intensely
written in verse and intensely clever,
devotes the whole of one day's recent
issue to the subject.

ODD DISCOVERY IN A TREE.

Hiding Place For Plunder Found by
Bee Hunters.

Bee hunters have discovered near
Henry, Ill., an odd bee tree. It was
found that a hollow space was lined
with sheet iron, and upon further in-
vestigation there was detected a slid-
ing panel skillfully covered with bark,
says the Chicago Post.

It is believed that this tree was once
used to secrete plunder. Thirty years
ago a strange character made his home
in the woods near the tree, and at
times he made a considerable show of
valuables. He disappeared as sudden-
ly as he came, but he was careful to
take all his property with him, as noth-
ing of any description was found in
the queer hiding place.

Markings of Alaskan Boundary Line.

The Alaskan boundary line, as it is
figured out from the cable award, is
approximately 850 miles long, says a
Washington dispatch to the New York
Tribune. It is to be fixed for all time
by the erection of monuments. These
monuments will be placed at distances
varying from one mile to five miles
apart, according to the nature of the
territory. These monuments will be
of iron, if the policy adopted with re-
ference to the Northwest Territories
boundary is followed. The survey and
erection of these monuments are to be
accomplished under the direction of a
joint scientific commission, of which
the American members will be selected
from the coast and geodetic survey and
undoubtedly headed by O. H. Tittman,
chief of that service. This work is to
begin, under the terms of the treaty,
"at once," but is likely to last several
years.
